

West-Central Ecoregion Lion Quotas and Observed Harvest 2018-2023

Tables created with data from mountain lion district closure reports and harvest reports 2018 - 2023.

*LMU boundaries and names changed several times 2018-2023. Corresponding LMUs from 2022-2023 are not an exact match to all 2018-2021 LMUs due to these boundary changes and variable hunting district groupings. Please see past year's regulations for further detail.

** LMUs 213, 214, and 215 were comprised of a variable grouping of HDs 212, 213, 214, 215, and 217 over this time period and were consolidated for consistency and ease of tracking harvest and quotas over time.

***LMU 421 did not exist until 2022. HD 421 was grouped with other HDs outside of WC ecoregion prior to 2022.

LMU*	2018						2019						2020						2021						2022						2023
