Honestly its ridiculous that this position within FWP doesn't already exist. With the amount of issues between public/private land and hunters on each a position that has a sole purpose of being a Liaison between those two groups is a must.

I am totally opposed to creating this position (\$\$\$\$\$\$). What FWP really needs is a major funding cut. Every goddamned year you hit me up for more money and the mistakes and failures of the department are ludicrous!

You note that Game Wardens have been the liaisons in the past. Game wardens are law enforcement, FWP and legislature wants to turn them into cops. Let them do their job a liaison always seems to owe someone a favor, can't be effective from the Warden side. Don't get me wrong there are some very good wardens that work both sides but not all of them. FWP has on staff some really good people, in the Helena/Great Falls area that if it was worthwhile to them they could do a very good job. The best landowner liaison is also going to be involved in hunter education as it is a big all encompassing circle.

This is a great idea, and contrary to some of the agency's response, could be improved. One huge issue regarding shoulder season access is determining which landowner(s) wants hunters to participate, without imposing a burden on them in terms of when/how to contact. Seems like a FWP regional liaison could bridge that gap and help coordinate those types of opportunities.

I support the creating of landowner liaison position, only concern is that the position may become overwhelmed and never get out of the Helena HQ, it is imperative that this position be seen in the Regions.

All sounds good, but just a waste of money to have the position. Game Wardens need to be visiting land owners.. The Land Owners only work with friends, Game Wardens need to be friends and stewards for Land Owners.. Can only open up more opportunity for hunting.

As a Montana resident hunter I support the recommendation for an FWP Landowner Liaison. While biologists and game wardens already serve in this role maybe having a specific person for this role or more wardens/biologists so they have smaller areas to patrol/manage and can dedicate more time to relationships.

I think this could be a good Idea as the Liaison would only be dealing with the landowners and not hunters. I know that when this was tried for the shoulder season it was a disaster as the shoulder season liaison's were so overwhelmed with calls from elk hunters that there were unable to even return all their calls.
