"87-1-265. Hunting access programs -- block management program -- private landowner assistance -- rules -- restriction on landowner liability. (1) There is established a block management program administered by the department to provide landowner assistance that encourages public access to private and public lands for hunting purposes.

(2) The department may also develop and administer alternative programs to the block management program that are designed to promote public access to private and public lands for hunting purposes.

(3) Participation in a hunting access program established under this section is voluntary. A lease, acquisition, or other arrangement for public access to or across private property for hunting purposes must be negotiated through a cooperative agreement between the landowner and the department that will guarantee reasonable access for public hunting. Landowners may also form a voluntary association when development of a unified cooperative agreement is advantageous. A cooperative agreement must contain a detailed description of the conditions for use of the private property, including but not limited to:

- (a) hunting access management;
- (b) services to be provided to the public;
- (c) ranch rules and other restrictions; and
- (d) any other management information to be gathered, which must be made available to the public.

(4) Private land is not eligible for inclusion in a hunting access program if outfitting, commercial hunting, or fees charged for private hunting access unreasonably restrict public hunting opportunities.

(5) If the department determines that an agreement may adversely influence game management decisions or wildlife habitat on public lands, then other public land agencies, interested sportspeople, and affected landowners must be consulted. An affected landowner's management goals and personal observations regarding game populations and habitat use must be considered in development of the agreement.

(6) The commission may adopt rules to implement the provisions of this section, including but not limited to rules that determine tangible benefits to be provided to a landowner who participates in a hunting access program. Benefits are intended to offset potential impacts associated with public hunting access, including but not limited to those associated with general ranch maintenance, conservation efforts, weed control, fire protection, liability insurance, roads, fences, and parking area maintenance. Factors used in determining benefits may include but are not limited to:

- (a) the number of days of public hunting provided by a participating landowner;
- (b) wildlife habitat provided;
- (c) resident game populations;
- (d) number, sex, and species of animals taken; and
- (e) access provided to adjacent public lands.

(7) (a) Benefits earned by a landowner who participates in a hunting access program may include but are not limited to those applied in the manner described in subsections (7)(b) and (7)(c).

(b) A landowner may receive direct payments:

- (i) for weed control or may direct payments to be made directly to the county weed control board;
- (ii) for fire protection or may direct fire protection payments to be made to the local fire district or the county where the landowner resides; and

(iii) to offset insurance costs incurred for allowing public hunting access.

(c) The department may provide assistance in the construction and maintenance of roads, gates, and parking facilities and in the signing of property.

(8) (a) Except as provided in 87-1-264 and subsection (8)(b) of this section, payments to a landowner who participates in a hunting access program through an annual agreement may not exceed ~~\$15,000~~ \$25,000 per year.

(b) Each landowner who participates in a unified cooperative agreement pursuant to subsection (3) may be eligible for payments not to exceed \$25,000 per year.

(9) The restriction on liability of a landowner, agent, or tenant that is provided under 70-16-302(1) applies to a landowner who participates in a hunting access program."

Section 3. Section 87-1-295, MCA, is amended to read:

"87-1-295. Public access land agreement -- terms -- application fee. (1) A public access land agreement may be granted only to a landowner who is providing access across the landowner's land to public land that is leased by the landowner or to public land for which there is no leaseholder. An agreement may not include land for which the landowner is also compensated pursuant to 76-17-102 or 87-1-294.

(2) The department shall negotiate the terms of a proposed public access land agreement with the landowner. Negotiable terms include:

- (a) the amount of compensation, not to exceed \$15,000 annually, and the duration of the agreement;
- (b) improvements to the land provided by the department that may facilitate public access;
- (c) the location of the access and the transportation mode by which the public may use the access;
- (d) time periods when the access may and may not be used; and
- (e) penalties for trespassing on private land not covered by the agreement.

(3) The private land/public wildlife advisory committee appointed pursuant to 87-1-269 shall review proposed public access land agreements and make recommendations to the department. The department shall consider the recommendations when issuing agreements.

(4) The department may revoke a public access land agreement for a violation of the terms of the agreement.

(5) The restriction on liability of a landowner, agent, or tenant that is provided under 70-16-302(1) applies to a landowner who holds a public access land agreement.

(6) (a) A landowner who proposes a public access land agreement to the department shall pay a \$5 application fee.

(b) All application fees must be deposited in the department's general license account and used for the purpose of establishing public access land agreements. At the end of each fiscal year, application revenue that remains unobligated is available to the department for any purpose pursuant to 87-1-201(3).

(7) The department may adopt rules to implement the provisions of this section."

If the number of licenses to be issued under this subsection exceeds the number of applicants who have purchased preference points, the remaining licenses must be added to the licenses issued pursuant to subsection (6).

(6) The department shall issue 25% of the Class B-10 and Class B-11 licenses made available for purchase pursuant to 87-2-505 and 87-2-510 by drawings in which the licenses are awarded to applicants who

An easement funded by this subsection (9)(a)(iv) may be granted only across private land to public land that is leased by the landowner, public land for which there is no leaseholder, or public land for which the landowner has consent of the leaseholder.
