I just read about the situation here, what a joke. I guess the ppl of Montana are just weak if some government clowns tried to restrict anglers on foot here in AK, they would think better right quick. No one here would stand for it.

I guess you politicians don't give a crap about your residents, if this passes I'll be sure to take my tourist dollars elsewhere.

If money is all you care about, you won't get mine.

Proud fisherman.
