I emailed last week asking where to find the written rules ARM 12.11.6702 and 12.11.6706 and have not received a response. In order for the public to make informed comments they must know what the rules state that are up for proposed repeal.

Thank you,
John

Hello,

I am curious about the rules change proposal but I cannot find any information about the rules that are up for proposed repeal. Please include links to the rules so that people can make informed comments.

Thank you,
John Calsbeek

I would like to know the total number of individuals on the Madison River Work Group?

I would like to know who the members of the Work Group are and their qualifications for membership on the Work Group?

How many members of the work group are guides?

How many members of the work group are men and how many are women?

What was the process for becoming a member?

Who made the decision as to who would be a member?

Am I correct in assuming that it is only the members of the work group that do not support these rules and want them repealed?

Once I have this information I will be in a better position to assess and understand the need to repeal these ARM

I look forward to your response in a timely manner so I can put forth my thoughts on the matter.

Thank you,

PERTAINING TO THE REST ROTATION AND WALK/WADE SECTIONS OF THE MADISON RIVER

Hello

How do I find out the composition of the Madison River Work Group and how they arrived at the recommendations to repeal these rules? Does the work group keep meeting minutes?

The workgroups recommendation to repeal these rules due to lack of support doesn't sound like it has anything to do with an alternative to reducing fishing pressure on the river which is the objective of those rules?

I would like to get the full picture on the basis of their recommendation.

Thanks

Would the repeal of ARM 12.11.6702 mean that fishing from boats would be allowed all the time?
...whether guided or not guided? ...OR...is the repeal just a repeal of the RECENT changes?
