

Proposed Allocation of Harvest by Lion Management Unit

- Allocation of limited special licenses by lion management unit (LMU) is in accordance with commission-adopted motion at February 4 meeting.
- No limited special licenses are proposed in LMUs with quotas of five (5) or less and where quotas are typically unmet.
- In LMUs with quotas greater than six (6) the limited special licenses allocation is 10, 20 or 30 percent of the quota, rounded to the nearest whole license.
- Limited special license harvests will be not be counted towards the quota available to unlimited license holders.
- LMUs marked with an asterisk routinely do not harvest all the quota.
- Tentative numbers of limited special licenses and tentative quotas are presented here for illustrative purposes and are not proposed for action by the commission at the April 19 meeting. Quotas will be acted on at the June commission meeting.
