Is this project for the greater good of a fish or is it to satisfy the "catch and torture for fun crowd" that spend hours catching fish and torture them to satisfy some warped "ego". At the expense of a fish. Cruelty to animals is unacceptable to the basics of life. There are more moral ways to benefit from the existence of wildlife that falls inline for the reasons and justification of the wildlife on Earth.

I support alternative 1. Liberalizing harvest maximizes the recreational value of the resource prior to the depopulation.

Remove the bag limit, there is no sense in wasting those fish.
