The quota info should be on the quotas document labeled “Final Wolf Quotas-Past 5 seasons” which has already been provided on the website.

Only 2022 and 2021 had regional quotas, the 3 seasons prior only had quotas in WMU 110, 313, and 316.

The table doesn't separate out WMU 313. The table lumps it in with R3 harvest. Inconsequential in 2021, but in 2022 there were 52 wolves harvested in R3 OUTSIDE of WMU 313 and 6 in WMU 313 for a total of 58.
