Subject: [EXTERNAL] Region 6 mule deer

All,
Please know that region 6 is in desperate need of limited entry draw for mule deer. The perfect storm for the last 3 years of winters, cwd, and increased overall hunter numbers have decimated the mule deer population to the point that both sportsman and landowners are in total agreement that the deer need help! I have started a petition to get this addressed that I hope to push for 10 days to verify this.
