Q2

Please comment on the Mountain Goat Season and Regulations

I support the addition of the archery season dates although a September 1 opener would be even better which also coincides with the current opener for some archery/rifle goat areas as it is. It just seems like a cleaner date for the opener rather than as proposed have three season openers.

Why are there not more tags for the Bitterroot? There used to be 75, then is was 1 or 2 per drainage, and now it's 1 for the entire area. Are there any studies or surveys that show their decline is that dramatic?

All sounds great. I do, however, wish there was a fool proof way hunters are not killing females.

Q2

Please comment on the Mountain Goat Season and Regulations

I support the creation of a mountain goat archery season that runs the same as the deer and elk archery seasons. The creation of this archery season adds no additional permits and there should be no extra pressure on mountain goats.

Q2

Please comment on the Mountain Goat Season and Regulations

I support the proposed early archery opener.

I am concerned about the dropping populations in premier areas like HD 447. It appears we are right on the edge of losing 14 HDs with only 1 permit being available in each? Our Montana sportsmen organizations are more than willing to help improve these situations if they are aware. Consider marking (flagging) those districts in the new regulations that are struggling to maintain population goals.

Q2

Please comment on the Mountain Goat Season and Regulations

The Montana Bowhunters Association supports the creation of a mountain goat archery season that coincide with the opener of deer and elk archery season. Since this does not add additional permits, we do not feel that this opportunity will place additional strain on mountain goat populations.

Thank you for the opportunity to comment.
