Please comment on the Ruby Dam Fishing Access Site Lease Agreement

As a person that often fishes at the Ruby Dam FAS, I believe the lease should be renewed so it can continue to benefit the public with wonderful fishing.

However, I don't believe adding a rustic camping site would benefit fishermen. It is a small fishing access and you'd basically have to walk through any camping site that's put there if you want to get further down river. I feel this would only create overcrowding at the fishing access. I would not be opposed to adding a camp site up at the reservoir though, as it seems to get more use anyways.

The Ruby Dam Fishing Access Site, leased by FWP from DNRC, is an important recreational site for Montana anglers. I have fished this area, and strongly support the proposed 10-year lease extension.
