Please comment on Montana Great Outdoors CE

The Montana Great Outdoors Project has been years in the making, and the Montana Wildlife Federation fully supports approval of this conservation easement. This permanent conservation easement maintains and improves public access in perpetuity, allows for habitat improvements for numerous wildlife species, and helps the local economy, all while helping to maintain the Montana way of life in the Northwest portion of our state. Proposals such as this are a great reminder of the conservation values that Montanans share, and we are thankful to the landowners and FWP for seeing this project through. Thank you.
