Please comment on Permanent Closure - Brogan's Landing FAS

As a Montana resident, one of the main reasons I live here is for the amount of public access for fishing. A permanent closure to the Brogan's Landing FAS will only decrease the total number of access points on a highly revered river that one could argue already has few access points due to the amount of private land that the river flows through. I would propose that the area adjacent to the entry of the pull off is increased as much as possible within the highway easement to decrease the claimed MDT hazard of having vehicles park at the top. Alternatively, please deny the permanent closure at this time until a better solution can be determined that doesn't completely remove a recreational access point on one of Montana's most fundamental rivers. Thank you.
